

# COW EARS TEMPLATE

Wrap around the headband  
along the dotted line and glue.

Cut out black spots (no template for this, make them all different, have fun!) and glue them to the white outer earpiece. Then glue the white outer ear to the headband by wrapping it along the dotted line. Glue the pink inner ear to the white outer ear, lining the pink edge up to the headband on the white piece. Then add the horns between the ears.
